# Bronx GEAR UP THRIVES

PROGRAM

GAINING EARLY AWARENESS AND READINESS  
FOR UNDERGRADUATE PROGRAMS

## The Bronx Institute Vision

The Bronx Institute's (BI) vision is to promote equity and excellence in the education and learning of students K-20, by involving administrators, teachers, parents and the students themselves in high quality programs. As a community resource, the BI is committed to act in cooperation with other academic institutions, community groups and organizations to develop joint projects that enrich the educational experience of all Bronx students.

## Bronx GEAR UP THRIVES Program

Gaining Early Awareness and Readiness for Undergraduate Programs (GEAR UP) is a federally funded program created to increase the number of students in underserved communities who are prepared for middle and high school and even better prepared to succeed in college.

The Bronx GEAR UP THRIVES Program 2021-2028 works with a cohort of 2175 students in a network of Bronx public schools to begin the process of preparing for success in middle school and high school, acceptance into college and ultimately achieve 21st century positions in the work force.

Students in Bronx GEAR UP THRIVES receive support to perform at the most rigorous academic level and achieve their highest potential. Bronx GEAR UP THRIVES works closely with schools to create college going culture with its students. GEAR UP family members learn about school expectations, high school choice assessment, and financial preparations for the future.
